Dear Mr. Formiga,

Celso Doria (Protocolo 200135/83)

I have recently learned that there was a chance that Mr. Celso Doria would be able to come to the University of Warwick to work with me for a Ph.D. degree in Mathematics. I have also learned that his M.Sc. thesis is on work very close to my own. Consequently, it would be of substantial benefit if he could indeed come here. I am prepared to take him on as a research student. If you could provide to help further his career, it would be much appreciated, by me as well. Thank you very much.

Yours sincerely,

A handwritten signature in cursive script that reads "James Eells".

J. Eells  
Professor of Mathematics
